28<sup>th</sup> September 2023

Dear Parents/Carers

We are looking forward to our STEM Focus Day on Wednesday 4th October 2023. All our pupils will be taking part in a range of activities focused on the school's five STEM skills: Reasoning, Creating, Discovering, Resourcing and Communicating.

Pupils will have the opportunity to experience a space show in our visiting mobile planetarium. This will be set up indoors in our Sports Hall and will be a dark, inflatable dome with bright lights shining on the ceiling. Other activities will include maths challenges, science experiments, coding tasks, music and PE. The activities that each pupil will take part in will depend on their class and year group.

In order to allow pupils to take part in as many activities as possible, the timings of the day will be different to normal. There will be shorter, 30-minute sessions throughout the day. Every class will receive more information about the day, along with a visual timetable, to prepare them for these changes.

Pupils will be able to earn house points throughout the day. Therefore, your child will need to come to school in their PE kits with a t-shirt which is in their house colour. This is yellow for Mercury, red for Mars and blue for Neptune. Some spare coloured t-shirts will be available.

This is going to be an exciting day and we will update you with photographs on our Facebook page for you to enjoy with your child. Please scan the QR code to follow our Facebook page.

Kind regards

Mr L Norton  
STEM Lead
