

# Understanding Computer Systems

## Year 11 Booklet

Name:

---

## L01: Understanding how ICT can be used to meet business needs

1: Research the meaning of the following **Key Words**, give examples where appropriate

- Portable devices \_\_\_\_\_  
\_\_\_\_\_
- Operating systems \_\_\_\_\_  
\_\_\_\_\_
- Application software \_\_\_\_\_  
\_\_\_\_\_
- Multimedia software \_\_\_\_\_  
\_\_\_\_\_
- Storage devices \_\_\_\_\_  
\_\_\_\_\_
- Magnetic media \_\_\_\_\_  
\_\_\_\_\_

2: Describe the following **portable** computer devices and state the features (i.e. word processing, voice calls, surf the internet etc. ) of each.

- Laptop \_\_\_\_\_  
\_\_\_\_\_
- Netbook \_\_\_\_\_  
\_\_\_\_\_
- Tablet \_\_\_\_\_  
\_\_\_\_\_
- Smartphone \_\_\_\_\_  
\_\_\_\_\_

3: What is an **input device**? List and describe five computer **input devices**, i.e. keyboard, touch pad, webcam, scanners etc. Include image where appropriate.

---

---

---

1. \_\_\_\_\_
2. \_\_\_\_\_
3. \_\_\_\_\_
4. \_\_\_\_\_
5. \_\_\_\_\_

4: Match the input device that is most suitable for the tasks on the right.

Keyboard	Surfing – clicking on links, icons
Mouse	Recording a song
Microphone	Writing a letter
Scanner	‘Face to face’ communication
Webcam	Capturing photos for editing

5: What is an **output device**? List and describe five computer **output devices**, i.e. printer, Monitor, speakers etc. Include image where appropriate.

---

---

---

1. \_\_\_\_\_
2. \_\_\_\_\_
3. \_\_\_\_\_
4. \_\_\_\_\_
5. \_\_\_\_\_

6: Match the task with the most suitable output device

- An output device which immediately lets you view what you have just input
- The printer which would output pages the fastest
- The printer which would let you print carbonated copies
- The best printer if you only want to print in colour occasionally
- The best output device for printing large posters or architect's blueprints
- The most appropriate output device for sound

- Ink Jet Printer
- Speaker
- Monitor
- Laser printer
- Dot matrix printer
- Plotter

7: Which **Application Software** is most suitable for the tasks below

- Writing a letter \_\_\_\_\_
- Making calculations/creating charts and graphs \_\_\_\_\_
- Store/query and generate report \_\_\_\_\_
- Sending email/receiving email \_\_\_\_\_
- Creating publications such as leaflet, flyer etc \_\_\_\_\_
- Making presentations with images and text \_\_\_\_\_
- Editing photos \_\_\_\_\_
- Editing videos \_\_\_\_\_
- Creating vector graphics \_\_\_\_\_

8: Web browsers are used to surf the internet, compare the two **web browsers** below, list and explain the features, discuss any drawback (bad features) of each web browser.

			
Name of browser:			
Security i.e. popup blocker:			
Compatibility i.e. can be used on all computer, can open all documents:			
Speed i.e. how quickly it opens a document, download a file, load a videos etc:			
Ease of use:			
Features i.e. spell check:			
Other good features			
Bad/poor features			

9: Research the maximum storage capacity of the following **storage devices**

- Optical discs (CD/DVD) \_\_\_\_\_
- Magnetic media (internal and external hard disk drives) \_\_\_\_\_
- Solid state drives \_\_\_\_\_
- Memory cards \_\_\_\_\_
- Network devices \_\_\_\_\_
- Cloud storage \_\_\_\_\_

10: Sometimes an organisation finds that '**off-the-shelf**' software will not do exactly what they want. In this case they might decide to have special **tailor-made**, or bespoke software specially developed for the purpose.

a) List three advantages of '**off-the-shelf**' software

i) \_\_\_\_\_  
\_\_\_\_\_

ii) \_\_\_\_\_  
\_\_\_\_\_

iii) \_\_\_\_\_  
\_\_\_\_\_

b) List three advantages of "**tailor made**" software.

i) \_\_\_\_\_  
\_\_\_\_\_

ii) \_\_\_\_\_  
\_\_\_\_\_

iii) \_\_\_\_\_  
\_\_\_\_\_

11: Find three publications on the development of **computer technology** that enables people with sight or hearing disability can use. (Visit the BBC archive or [www.teach-ict.com](http://www.teach-ict.com))

12: Draw a layout of an ideal ICT room, your room should include the following devices

- 20 student computers
- 1 teacher computer
- 1 colour printer
- 1 black and white printer
- 1 scanner
- 1 interactive white board

Describe how the **peripherals** (printers, scanner) are connected to the computer devices wired method (e.g. USB Fire wire) or Wireless methods (e.g. Wifi, Bluetooth, infrared), give reason for your answer.

**Classroom layout**

**Connection description and reason**

13:

**Wireless network and connectivity**

a) Identity the names of each wireless network above \_\_\_\_\_

b) Which network required a security key? \_\_\_\_\_

c) What is the difference between public and private network?

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

## ICT in Business Keywords

 PERIPHERALS  
 CONNECTIVITY  
 NETWORK  
 INTERNET

L02: Know how to work with information and data to meet specified business needs

17: Research the meaning of the following **Key Words**, give examples where appropriate

- sensors

“

- data

- forms

- data capture

- validation

- database

- bandwidth

- back-up (data)

- recovery (data)

18: Explain the following methods of **capturing data** (gathering letters, numbers, barcode, any written text), give at least one advantage and one disadvantage of each

- paper-based

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

- automated data capture methods i.e. barcode reader

\_\_\_\_\_

\_\_\_\_\_

19: Capturing Data - Use the words in the list below to complete the sentence

Software, automatic, written, optical, paper, scan, form

- a) A **bar code reader** uses visible red light to \_\_\_\_\_ and read a barcode
- b) An optical mark reader is a scanning device that reads carefully placed pencil marks on a specially designed \_\_\_\_\_ or document.
- c) The \_\_\_\_\_ based method is the most commonly use method of collecting or capturing data.
- d) An **Optical Character Recognition** system consist of a normal scanner and some special \_\_\_\_\_ the scanner is used to scan the text from a document into the computer.
- e) The \_\_\_\_\_ character recognition is used to automatically recognise postcodes on letters at sorting offices
- f) There are many methods which can be used to collect and enter data, some manual and some \_\_\_\_\_
- g) A speech recognition software is also an example of automatic data entry. T he software listens to the speaker then translates the information into \_\_\_\_\_ words.

20: You are the recruitment officer at the Job Centre, on a daily basis you receive a number of online and paper based application for organisation. Use the variables below to evaluate which method is most suitable to process the information. Give reasons for your answer.

	Online application	Paper based application
		
Which option is more <b>costly</b> for the business? why		
Which option is <b>economically friendly</b> ? why		
Which option is easier to <b>use</b> for the applicant? Why?		
For which option is data more		

<b>secure?</b> Why?		
Which option allows data to be <b>processed quickly?</b> Why?		
Which is easier to <b>store/maintain?</b> Why?		

21: Create a **questionnaire** to gather personal information about new students. When creating this questionnaire you must consider the **audience** and **purpose**, your questionnaire must capture the following data. Use the template below.

Gender, Age, Personal details i.e. Date of Birth, Contact details, Hobbies, Future plans (careers or further education), Any other relevant information.

<u><b>Questionnaire</b></u>
-----------------------------

22: Database **design** and **Validation** - Read the BBC extract above and answer the following questions.

**BBC NEWS** **LIVE** BBC NEWS CHANNEL

Last Updated: Friday, 28 January, 2005, 00:36 GMT  
E-mail this to a friend    Printable version

**'Third' of DVLA car records wrong**

**A third of cars could be incorrectly registered in government databases, making it harder to stop vehicle crime, the public spending watchdog has said.**

The report said the DVLA records were vital to fighting crime

The National Audit Office (NAO) said recording correct addresses, postcodes and registration numbers was essential as police cameras were being used more.

Its report also accuses the Driving and Vehicle and Licensing Agency (DVLA) of being slow to correct its records.

The DVLA said the NAO had used old data and many mistakes had been corrected.

**Top priority**

According to the report, almost 15% of addresses are wrong because drivers often don't inform the agency that they have moved.

Navigation: News Front Page, World, UK, England, Northern Ireland, Scotland, Wales, Business, Politics, Health, Education, Science & Environment, Technology, Entertainment, Also in the news, Video and Audio, Have Your Say, Magazine, In Pictures, Country Profiles, Special Reports, RELATED BBC SITES, SPORT, WEATHER

- a) What are the **implications** of having incorrect data in a database, refer to the extract above? \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_
- b) As a database developer how can you ensure that the information in a **database** is correct and up-to-date? \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_
- c) How do you think the DVLA rectify the above problem? \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

23: Research the following questions.

a) What is data **validation**? Give examples of data validation.

b) Why is data validation important when creating a database?

24: The local zoo has created a **database** to store records about each of the animals. A copy of their main table looks like the one below

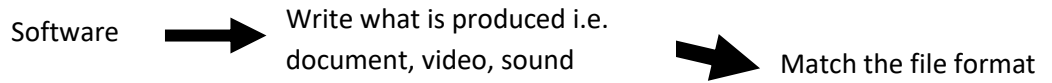

Hint: Fields - (Column heading), Records (information in an Rows)

Animal Breed	Name	Gender	Age	Food
Giant Panda	Pongo	M	8	Bamboo
Giant Panda	Bongo	F	7	Bamboo
Penguin	Pingu	M	5	Fish
Lion	Hermes	M	4	Fresh meat
Lion	Tarsa	F	4	Fresh meat
Crocodile	Spike	M	7	Fresh meat
Gorilla	Gemella	F	122	Fruit
Zebra	Stripey	M	8	Grass
Snake	Leyla	F	2	Live mice
Parrot	Robina	F	25	Nuts and seeds

- a) How many **fields** are there in the zoo database? .....
- b) How many **records** are stored in the database? .....
- c) One of the fields has been sorted into **ascending** order. Which field is it? .....
- d) One item of data in the database looks incorrect. Which one do you think it is?.....
- e) Explain your answer.....
- f) How many animals are there in the database which are female?.....

- g) Give the names of the animals which eat fresh bamboo?.....
- h) Give the name of the animal which eats fresh meat and is female?.....

25: The following are file format for storing data match the following **application** with the **proprietary** format. You must also write what objects or combination of objects each **software** produce.

 Microsoft Word 2007	
 Microsoft PowerPoint 2007	
 Microsoft Excel 2007	
 Adobe Flash	
 Windows media player	

- .xls

---

.docx

---

.pptx

---

.wma

---

.fla

26: Select six of the following open file format and state what the **extension** means, state the type of data and the application that can open this document.

Open format	Application that can be used to open this file format	Type of data that can be stored in this file.
.pdf	e.g. PDF files are can be open in with adobe PDF. Web browsers can also open PDF files.	PDF files contain text and images.
.rtf		
.csv		
.exe		
.txt		
.mp3		
.wav		

27: Data **storage technologies** word search

S C L S X E B Q T F C B W H Q	DATA
W Y N E P L J Z H Z I F K R J	STORAGE
G H I I N B U A L N R W Q E P	TECHNOLOGIES
O A U G B A L A X D F S Z G I	LOCAL
X N X O A V C T A H W I D A M	MEDIA
Z W E L N O O I E U Y T U R P	REMOVABLE
Q X T O L M D M W P C C I O U	REMOTE
W M I N A E S N I E Y B K T E	OFFSITE
H C S H M R G C T U Q J Y S R	LOCATION
P L F C H K S O M Q R D A T A	CLOUD
B O F E L Z M D Q G Z Q F D S	
P U O T P E L X U O W I Q U Y	
U D J I R L J J B V Z O X L C	
N U C F X Q M C J Y I R F Z Z	
N O I T A C O L U O T C C Q C	

28: Security measures when storing data – complete the table below stating how to protect others from accessing password, password and access to your user area either at home or at school.

	How to protect it	Risk of unauthorised access/usage
Password		
Username		
Access to documents in your user area		

29: Data transferring technologies - describe the following method of transferring data for each method List three advantages and three disadvantages.

- Email

---

---

---

- Mobile transmission (sms)

---

---

---

- Peer –to –peer file sharing

---

---

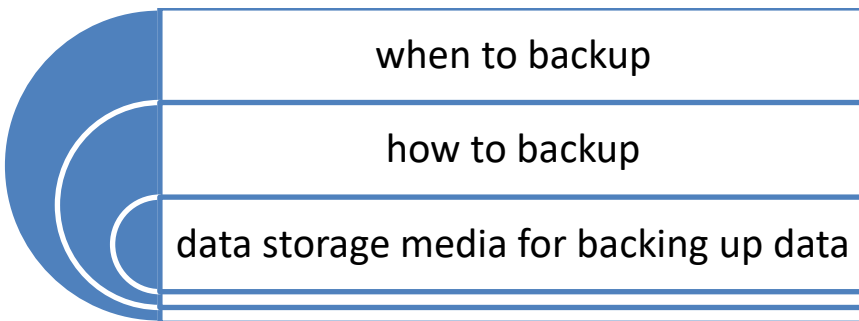

---

30: Methods of **transferring** data - fill in the blanks below from the list above.

Wired and wireless method	Mobile data transmission i.e. 3g , 4g	peer to peer file sharing	email,	Use of data encryption
---------------------------	---------------------------------------	---------------------------	--------	------------------------

- a) This method is most suitable for transferring a large amount data \_\_\_\_\_.
- b) \_\_\_\_\_ provides the quickest method of f transferring data.
- c) This method of transferring data is future proof \_\_\_\_\_.
- d) \_\_\_\_\_ allows data to be transferred **securely**.
- e) \_\_\_\_\_ allows the user to access data on demand/on the go.

31: Design a backup and recovery guidance for the welling school. Your guidance should include the following. You guidance should consider the following factors: **cost, ease of use, data security**.

---

---

---

---

---

---

---

---

---

---

## Keywords

## L03: Know how ICT can be used to support business working practices

33: Explain the following method of **communication** in **businesses** for each, give an advantage and a disadvantage

Communication method	Description	Benefits	Drawbacks
Email			
Chat room			
Forums			
Bulletin Boards			
Voice over IP (VoIP)			
Video conferencing			
Webcam			
Blogs			
Social networking			

34: Identify the following section of an email and say why each is important

<p>SEND Saved Discard Labels Draft autosaved at 8:45 PM (0 minutes ago)</p>	<p>Subject:</p>
<p>To: "kate ward" &lt;katherine-ward@hotmail.com&gt;</p>	<p>Attachment:</p>
<p>Cc: "Sapna Vishwanath" &lt;mails2sapna@gmail.com&gt;</p>	<p>Bcc:</p>
<p>Bcc: "Robyn Huelin" &lt;robynhuelin@gmail.com&gt;</p>	<p>Cc:</p>
<p>Subject: Hotels in Mexico</p>	
<p>list of hotels.docx (application/vnd.openxmlformats-officedocument.wordprocessingml.document)  <a href="#">Attach another file</a></p>	
<p><b>B I U T - A - T - ☺</b>  Plain Text</p>	
<p>Deal All          Attached to this email is a copy of the list of Hotels in Mexico. Please let me know if you have any questions.          Regina Falinge          Marketing Manager          Witcombe Group</p>	

35: Compare the following electronic and paper based diary. Include the following in your comparison. **Ease of use**, storage, finding information, organisation,

Paper based diary	Electronic diary

36: How can documents be created and edited **collaboratively**. Describe the following method of sharing documents.

- Network shared area (e.g. read/write access like the W drive)

---

---

---

---

---

- **Cloud** based services (e.g. open or restricted access to files)

---

---

---

---

---

37: Know how ICT can be used to support **business** working practices word search.

## **Business working practices Keywords**

Q N F C X K I M P S K R D U V

EMPLOYEES  
MESSAGING  
WEBCAMS  
MANAGEMENT  
ORGANISE  
LOCATION  
CLOUD  
RESTRICTED  
DOCUMENTS  
COMMENTS  
TRACKING  
REJECTING

38: Give a brief description of the following **legislation** and state how each can affect business computer users.

- Health and safety \_\_\_\_\_
- Data protection \_\_\_\_\_
- Copyright \_\_\_\_\_
- Computer misuse \_\_\_\_\_

39: Create a poster to provide information to computer users about **cyber bullying**. Your poster should include the following

What is cyber bullying, How it can affect people, How to prevent cyber bullying, Relevant images, charts, quotes, statistics etc

40: It is considered unethical for organisation to monitor their employees without their knowledge. Give an example of then the following monitoring/tracking techniques should be used.

	Organisation type/ example	Why monitor
Key logging	e.g. Prisons	e.g.Unauthorised possession of keys may lead to the freedom of prisoners
Worker call monitoring		
Electronic consumer surveillance		
Mobile phone triangulation		
Worker call recording		
Cookie monitoring		

41: Below are **threats** to the **security** of data, you must explain the impact of each threat and what can be done to remove them

Threats	Impact of the treat	Action to remove threat
Computer virus		
Phishing		
Spyware		
Adware		
Hacking		
Physical treats (loss or theft of devices)		

42: The **implication** and **consequences** data loss, corruption and theft. Read the article above then answer the questions below.

**LIVE BBC NEWS CHANNEL**

Page last updated at 05:58 GMT, Thursday, 24 April 2008 06:5

[E-mail this to a friend](#) [Printable version](#)

## Call for bank action on ID theft

**Financial services companies need to do more to stem the rise in identity fraud, the Financial Services Authority (FSA) has said.**

Companies underestimate the risk of data loss and fraud to their businesses, especially their customers, it said.

The survey follows a string of high-profile security breaches.

Nearly half of the 39 companies interviewed in a survey offered staff no data security training.

Medium-sized and small firms were the worst offenders, it found, and one unnamed firm has been referred to the FSA's enforcement unit as a result of data security failings.

They showed a "lack of awareness that customer data is a valuable commodity for criminals," it said.

"As a consequence, systems and controls are often weak and sometimes absent," it said.

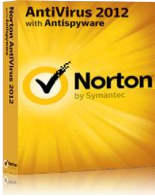

"It is worrying that despite increased public awareness of the impact that identity theft can have on customers, many firms are still not taking the risk seriously," said Philip Robinson, the FSA's director of financial crime and intelligence.

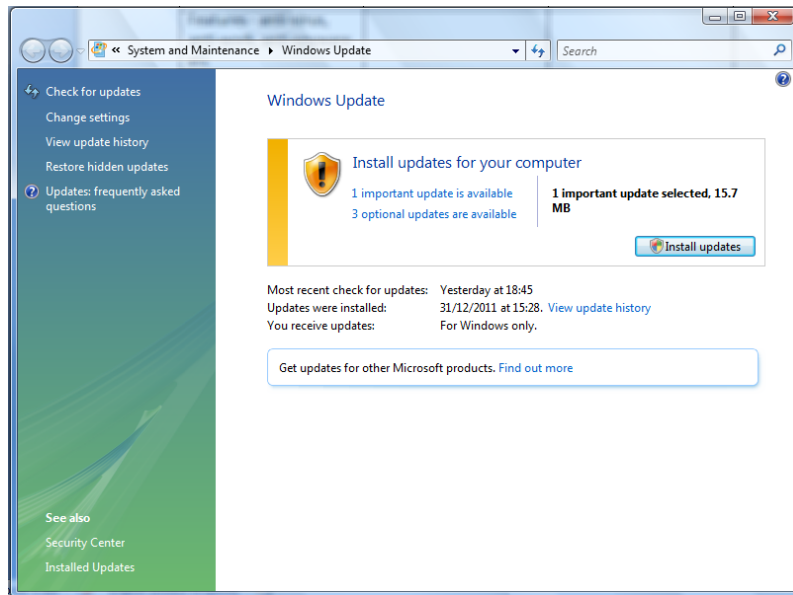

HSBC lost a disc of data and the FSA says firms need to do more

- a) What is the impact on the bank? i.e. (cost of resolving the problem, lose customers)  
\_\_\_\_\_
- b) How does this affect customers? i.e. (reduce confidence in the bank)  
\_\_\_\_\_
- c) What is the impact on the employees of the bank? i.e. (disciplinary action for not following company procedure)  
\_\_\_\_\_
- d) What are some of the ways to reduce identity theft?  
\_\_\_\_\_

43: The use of **protection software** such as anti-virus, anti-spam etc. Research and compare three protection software brands using the criteria below.

	 Norton	(Protection software 2)	(Protection software 3)
<b>Ease of use</b> (scanning, fixing and understanding security risks)			
<b>Effectiveness</b> – how well does it protect your computer			
<b>Features</b> - anti-virus, anti-work, anti-spyware etc			
<b>Compatibility</b> - can it be used on all operating system.			
Help and support – phone support, chat support, email support			

44: Automatic update - Look at the image below then answer the question that follows

a) What is the purpose of the message? And Why is it important?

---

---

---

b) What are the consequences of ignoring messages such as the one above

---

---

45: Understand how legal, ethical, safety and security issues affect how computers should be used.

<b>legal and ethical issues Keywords</b>																
U	P	R	O	T	E	C	T	I	O	N	A	B	N	N	LEGAL	MISUSE
M	U	V	S	N	D	E	G	U	T	G	X	Y	M	O	ETHICAL	ELECTRONIC
