## Year 7 PSHE Website Pack 11

### This week we are going to look at video game ratings.

Pan European Game Information (PEGI) is a rating system that allows buyers of video games to know what age it is suitable for and the type of content that is in it. Did you know that shops that sell titles with ratings of 12, 16 or 18 years to children below the age limits will be prosecuted?

Have a look at these common video games.

- 1) Find the age limit for the following games

 Age?	 Age?	 Age?
 Age?	 Age?	 Age?

- 2) Do you think that there should be age ratings on video games?

- 3) Give a reason to your answer to question 1

- 4) Cut out the symbols and explanations and match them up. If you get stuck and you have access to the internet you can go to <https://pegi.info/>

 www.pegi.info	Drug Use	 www.pegi.info
Fear	 www.pegi.info	For age 3 and up
 www.pegi.info	Discrimination	 www.pegi.info

<p>For age 7 and up</p>		<p>Gambling</p>
-----------------------------	---	-----------------

	<p>Violence</p>	
--	-----------------	--

<p>For ages 18 and up</p>		<p>Sexual Content</p>
-------------------------------	---	-----------------------

	<p>For age 16 and up</p>	
<p>Online</p>		<p>For age 12 and up</p>
	<p>Bad language</p>	<p>Blank</p>

All work completed = positive points on Sleuth 😊
