

HOME LEARNING

YEAR 8 - Design and Technology Homeworking

- Design the product
- Now that you have done some important research that finds out about the needs and wants of your target market you can start to come up with a product.
- Remember that your target market needs to be suitable for your intended target market – if your questionnaire showed that they need something then you have to include it in your designs!
- Your product can be anything that they would want to use or need- .
- Come up with two different designs for your product- don't forget to add colour and notes.
