Dear Parent / Carer

Nut Allergy

On returning to school in September, we will be welcoming a student who unfortunately suffers from a severe nut allergy.

People who suffer from nut allergies can develop a severe, potentially life-threatening allergic reaction.

If someone has a nut allergy it is not just eating nuts that can cause a severe reaction, just being touched on the skin or smelling the breath of someone who has had nuts or a product containing nuts can trigger an allergic reaction, which can cause breathing and swallowing difficulties.

As we are a school with children with nut allergies this means that staff and students will not be able to bring any food or product into school that contains nuts.

We thank you for your support with this.

Yours faithfully,

L. Salter
