

HOMEWORK PROJECT

Witchy Walkabout

Go on a spooky walk with your family! Spot autumn colours and nature treasures. Take photos or draw what you see.

Creepy Crafting

Make something Halloween-themed. Ideas include paper plate pumpkins, toilet roll bats and spooky masks. Use recycled materials or natural items like leaves and sticks you have collected whilst on your 'Witchy Walkabout'. Take a photo or bring it in to display!

Spooky Sensory Bottle

Make a sensory bottle using water, glitter, food colouring and small Halloween items. Decorate the outside with stickers or drawings.

This half-term, we're celebrating **Halloween** with a special creative project called **"Spooktacular Half-Term!"**

You can choose from the activities on this poster to celebrate Halloween with creative, active and imaginative tasks. You can do one, two, or as many as you like!

Send photos of what you do over half term to:

homework@bower-grove.kent.sch.uk

Or you can bring any work in to go on display. 20 Sleuth and House Points for all work submitted. All work to be sent by Friday 31st October 2025

Design a Costume or Character

Invent your own Halloween character! Draw or describe your character: What do they wear? What is their power?

"Slime Bug Cups"

Ingredients:

- 4 X 135g packs lime jelly
- A selection of animal and bug themed sweets
- 2 X 154g packs Oreo biscuits

Instructions:

1. Make up the jelly following pack instructions. Pour a third of the mixture into 12 small glasses or plastic pots. Add a couple of bugs to each pot, then leave to set in the fridge, keeping remaining jelly at room temperature.
2. Once set, add more bugs to each container (lean some against edges, so they stick out the top). Pour over a third of the jelly and leave to set in the fridge. Repeat with remaining bugs and jelly.
3. For the soil topping, place cookies in a plastic bag and, using a rolling pin, bash into crumbs, then tip onto a plate.
4. Just before serving, sprinkle a layer of soil over each set jelly, then top with a mushroom, a slug and some ants or your choice of creepy crawlies.
5. Take a photo and share it with school!
